

# Your old shoes can help raise awareness about organ and tissue donation!

Did you know that your old, no longer used shoes can help to raise awareness about organ and tissue donation? In cooperation with Community Recycling and Gift of Life Donor Program, the Gift of Life Donor Dash is taking part in a unique fundraising drive that we hope you will consider supporting. ***It will cost you no money!*** Participating is simple. Just bring your used shoes to the On-Site Registration area of the 2019 Donor Dash. They can be any type of shoe, we are collecting all types and sizes of shoes—***they do not need to be running shoes***, all types of shoes are acceptable. This international shoe recycling program collects any type of used shoes for distribution to poor regions all over the world (including areas in the USA). For each container filled with shoes a donation will be made to Gift of Life Donor Program.

Our community will benefit as well. Not only will your recycled shoes help raise funds for Gift of Life Donor Program, it will also keep more shoes out of our local landfills---and free up some space in your closet.

- **Drop off your used shoes in the shoe recycling container at the 2019 Donor Dash On-site registration area.** As each container is filled they are shipped to the Community Recycling organization for distribution to those in need. Gift of Life receives a donation for each container that we fill.
- You get to free up some closet space while helping to reduce landfill waste.
- Remember, ***they do not need to be just running shoes***. We are collecting and recycling any type, style and size shoes.
- Ask your family, friends, neighbors and co-workers to participate and bring those shoes to the Delaware Donor Dash as well.

***Thank you very much for helping!***

**DROP OFF ANY TYPE OF SHOES** at the shoe recycling containers located at the On-Site Registration tent at the 2019 Donor Dash.

***Thanks and have a great run or walk.***
