DONOR PROGRAM

# 10 REASONS to SAY YES

95%

of people support organ donation.

Transplants give people a **second chance at life**, so they can work, travel, play sports, graduate, marry, have children, raise families and more.

About **36,000 Americans** receive a **life-saving transplant** each year, but many more are waiting and 20 die each day.

More than **half on the waitlist** are from **communities of color**.

Being a donor **does not affect** medical care or funeral arrangements.

If everyone registered, it is estimated we would **double the number of lives saved**.

One organ donor can **save up to 8 lives** and a tissue donor can help **save or improve more than 75 lives**.

**Everyone can register**, regardless of their age or health history.

Donation is **supported by all major religions** for its humanity, love and compassion.

**What if you or a loved one needed a transplant?**
