

# 10 REASONS to SAY YES

95%

of people  
**support  
organ  
donation.**

Transplants give people a **second chance at life**, so they can work, travel, play sports, graduate, marry, have children, raise families and more.

Over **46,000 Americans** receive a **life-saving transplant** each year, but many more are waiting and 13 die each day.

Diabetes and hypertension damage organs, **increasing** the need **in multicultural communities.**

Being a donor **does not affect** medical care or funeral arrangements.

If everyone registered, it is estimated that an additional **17,000 people would receive a life-saving transplant** each year.

One organ donor can **save up to 8 lives** and a tissue donor can **help about 100 others.**

**Everyone can register**, regardless of their age or health history.

Donation is **supported by all major religions** for its humanity, love and compassion.

**What if you or a loved one needed a transplant**
